

The Daily Courant.

Tuesday, September 30. 1707.

From the Amsterdam Courant, dated Oct. 4.

Vienna, Sept. 21.

THE 19th Instant an Express from Rome brought some secret Dispatches to the Pope's Interuncio at this Court; which 'tis surmisd relate to the Affairs of the Kingdom of Naples; but Count Martinitz being coming back from thence, 'tis hop'd all Discontents and Contentts will cease. 'Tis advis'd from Hungary, that the Malecontents have fall'n upon General Rabutin's Rear, taken all his Provisions and Baggage, and kill'd 1000 of his Men. 'Tis said Prince Anthony of Litchenstein, chief Minister to King Charles III. in Spain, will succeed the Prince of Salm as President of the Emperor's Council. Prince Eugene of Savoy is expected here in a short time. Count Wratislaw will suddenly be going to Silesia, to see the Protestants put into possession of their Churches; in which Affair the Swedes will be desir'd to use some Moderation, and particularly in the Expulsion of the Jesuits settled in Lignitz.

From the Leiden Courant, dated Octob. 3.

Warsaw, Sept. 16. The Czar of Muscovy having given an Answer to the Demands of the Deputies from the Diet of Lublin, and also his Resolution upon the Propositions made to him by the Hungarian Deputies; set out from hence last Night for Brzeze in Lithuania, whither he had before order'd his Foot to march from Volhinia.

Dantzick, Sept. 23. 'Tis confirm'd from Warsaw, that the Czar as soon as he receiv'd the News of the King of Sweden's Marching into Poland, went away for Lithuania, and order'd P. Menzikoff to retire thither with the Muscovite Troops that were near the Vistula.

Lignitz, Sept. 21. On Wednesday last at 4 in the Afternoon, General Spar and our Governour sent for the Jesuites, and signified to them by an Order in Writing, that they should evacuate their great College and the Church of St. John in 24 Hours Time: But they representing that it would be hard for them to do it conveniently at so short a Warning, and desiring 3 Days, they were allow'd till Saturday. 'Tis reckon'd the Number of Churches that are to be restor'd to the Protestants of this Country is about 800.

Breslau, Sept. 26. All the Swedish Regiments that were in Silesia are now in Poland. The Muscovites making Preparation to retire, no new Election of a King of Poland is to be expected; and 'tis thought, that if the Muscovites will not make a Stand, the King of Sweden will endeavour to penetrate into their Country, quite to Moscow.

From the Amsterdam Courant, dated Octob. 4.

Hambourg, Sept. 30. The Advices from Riga and Mitrah say the Campaign is ended in those Parts: The Muscovites having retir'd, and General Lewenhaupt having put his Troops into Quarters.

Paris, Sept. 30. The Ceremony of Baptizing the Prince of Asturias is put off to the Winter, and consequently the Duke of Orleans's Journey from the Army to Madrid. The Siege of Lerida is begun, but the Besiegers themselves doubt the Success, because they want a sufficient Number of heavy Cannon and Stores of Ammunition. 'Tis fear'd likewise that King Charles will receive Reinforcements from Italy, to enable him to raise the Siege of a Place that by its Strength and its being well provided with all things necessary may make a long Defence. Letters from Fontainebleau, say the King has receiv'd Advice that Suza is besieg'd, and that the Enemy have already possess'd themselves of the Town, but that the Castle holds out. M. Tullier is on the March to relieve it.

From the Camp at Helchin, Sept. 29. The Roads growing every day deeper, 18 of the heaviest Cannon were sent away Yesterday for Brussels, and the rest of the heavy Cannon for Ghent. The Enemy's Generals are settling the Winter Quarters for their Troops; and give out that the Bavarians shall winter in the Country of Luxembourg, to be the nearer to Germany, and that the Elector of Cologne's Troops shall be distributed between the Sambre and the Maese. The Enemy's Army is miserably poor, the Soldiers having receiv'd but about 3 Months, and the Officers but 2 Months Pay this whole Campaign.

From the Camp at Helchin, Oct. 3. The Duke of Marlborough sets out to Morrow for the Hague; from whence he will return in 5 or 6 Days.

Hague, October 4. The foreign Ministers are in great Expectation to know what Augmentation of the Forces of the Allies will be propos'd for the next Campaign. The Repartition of the Winter Quarters is settling: Great Sollicitations are made by some of the Generals of this Country, to have the Command of the Troops that shall be distributed on the Maese during the Winter, because the Government of Liege being annex'd to that Command, their Emoluments may be considerable. The Emperour having ratify'd the Treaty with the King of Sweden, 'tis now thought the States will give their Guaranty; at least 'tis certain the States of the Province of Holland have for their Parts given their Consent to it. The King of Portugal has resolv'd to acknowledge the King of Prussia's Royal Title, and has sent a Commission to M. Pacheco his Envoy here to go to Berlin for that Purpose. That Envoy waits the Arrival of the Portuguese Ambassador that is to go the Court of Vienna to ask one of the Archduchesses in Marriage for the King his Master; intending to accompany him on his Way as far as Berlin.

London, September 30.

In the Courant of Friday last, was inserted an imperfect

imperfect Copy or Abstract of the Treaty between the Emperour and the King of Sweden, that came to our Hands by the former Mail from Holland. The whole shall be translated and inserted intire in the next Monthly Register: For the Articles at large of that Treaty, having been printed in the Postman of Saturday last, we are unwilling to repeat them (tho' in a different Translation) in this Paper. Long before any such thing as a Venetian Srup was ever hatch'd or thought on, were often publish'd the true Original Strops for setting Razors, Pen-knives and Lancets to a most exquisite fine Edge, and polishing them to an extraordinary Brightness, and had not these been known to answer the just Character given them through the whole Nation, the Venetian Author had never Aped 'em under a Sham Title, and had the Impudence to impose that Name upon those he knows to be the true ones first publish'd in England, therefore beware of those and other Counterfeits, the True ones being only Sold at John's Coffee-house in Sweeting's Alley near the Royal Exchange, at 1 s. each, with directions fix'd to 'em, as hath been often mention'd in the Gazette.
